

# ST. CHARLES MODEL WORKS

*Makers of loads, kits and detail parts for the discerning modeler*

## THE HOLIDAYS ARE APPROACHING!

As a way of saying thank you to our loyal customers we are offering the following program to ensure that your holidays are filled with train goodies.

Every time you make a purchase of \$40 (before shipping) or more on our store between now and December 31, you will receive a **gift certificate worth \$10**. This gift certificate will be good on any item in our store and will not expire until December 1, 2014. There's no

minimum purchase required to use your \$10 gift certificate. So, if you want to purchase one coal load at \$8.95, the \$10 will apply to the merchandise as well as the shipping. You will receive that coal load for free and pay only \$4.55 for shipping (based on an average \$5.60 shipping cost). If you decide to purchase a gondola load, it's like saving over 40% on the cost of that item. If you have been considering one of our kits, like the Coal Yard or Art Deco Bridge kit, this would be a great time to make that purchase! You'll save \$10 off the price of that kit. What a great way to get what you *really* want from Santa Claus this year!

## Coal Load Specials

**Every Sunday** two different coal loads are reduced to \$7.50 each for one week only. This is a savings of \$1.45 off of our normal \$8.95 price. Check on our home page in the **Featured** items to find out which coal loads are on special for any given week. You can also click on the **Specials** tab to see these and other discounted items.

## Coming Soon!

We are working on the following new items to be introduced in the first half of 2014.

- \* Roll-Off Dumpster kit
- \* More HO loads
- \* N Scale loads

Continue reading on the next page for details.

### YOU ASKED FOR IT

We have updated all of our load listings to include the **measurements of the inner dimensions** of the cars they fit. Many of you have asked for this information. We hope this will help you determine which of our many loads will fit your cars.

# Coming Soon! (continued)

## N Scale Loads

Thanks to our CAD designer, who is an N scaler, we are excited to add N Scale loads to our product line. We'll start with steel industry loads. The first to come out will be the fluted ingots, shown here.

We will also have a poly bulk liquid container and a septic tank to be used as loads or detail parts. (These are also coming in HO.)

## Roll-Off Dumpster Kit, O Scale

We advertised this item in a recent OGR issue. We are still putting on the finishing touches, milling a few detail pieces. We've had many calls and emails about this kit so we know you are looking forward to it and others in the series!

## More HO Loads

We will be adding the following loads to our new HO category.

Fluted Ingots - two types, Large Ingot Molds, Union Electric 8 Piece Ingot Mold set, Steel Slabs, Steel Pups and Scrapped Wheels.

## Two NEW Coal Loads

We've added these NEW coal loads to our coal offerings. They are available now.

MTH Fishbelly Large Grade Coal load, \$8.95

The RailKing load was made upon request from a customer. If you need a coal load for a hopper that we don't already make, please let us know. Many of our loads are designed as a result of customer suggestions. Thanks for your great ideas!

MTH RailKing 4 Bay Hopper, Medium Grade Coal load, \$8.95
